Frontend Developer with 3+ years of experience crafting responsive, scalable web applications using React and JavaScript/TypeScript. Strong focus on clean design, reusable components, and performance optimization. Experienced in team collaboration, agile development, and API integration.

TECHNICAL SKILLS

Languages: React, JavaScript (ES6+), TypeScript, HTML5, CSS3, REST APIs, Git, Redux, TailwindCSS

Languages: Spanish (native) | English (C1, fluent written and spoken)

PROFESSIONAL EXPERIENCE

FRONT-END DEVELOPER
BANHCAFE

- Refactored legacy codebase from JavaScript to TypeScript and improved app performance by 40% across Aurora, a 200+ screen internal platform.
- Built dynamic dashboards and interactive charts for national-scale banking and demand systems in collaboration with backend teams.
- Designed and developed internal tools from scratch, including a company-wide request management system and a marketplace-style app.

May 2024 – Present

FRONT-END DEVELOPER (INTERNSHIP)
BANHCAFE

- Developed a full login-enabled site with global state management for secure banking API integration.
- Delivered 20+ internal CRUD screens aligned with backend logic and business rules.
- Collaborated with backend developers to ensure seamless API communication and maintainable architecture.

February 2024 – May 2024

LIVE AGENT (BILINGUAL CUSTOMER SUPPORT AGENT)
EARTHLINK

- Provided bilingual support (English/Spanish) for telecom clients like AT&T, CenturyLink, and Frontier.
- Acted as translator and interpreter, managing real-time communication between global teams.

August 2021 – November 2021
Tegucigalpa, Honduras

EDUCATION

Bachelor’s Degree in Computer Science Engineering
Magna Cum Laude with Honors
Catholic University of Honduras

January 2020 – December 2024
GPA: 3.5
Tegucigalpa, Honduras

PROJECTS

Forkify App | API + MVC

- Built modular MVC recipe app with async API, bookmarks, using localStorage and serving size features.
- Implemented error handling and upload logic for seamless recipe management.
